

**EcoVest Capital Names Triloma Securities As Its Managing Broker/Dealer**  
*Eco-friendly real estate development company selects growing investment firm to distribute products*

ORLANDO, Fla. and ATLANTA, GA. (June 8, 2015) – EcoVest Capital, Inc., an Atlanta based real estate development company that provides sustainable land management strategies, announces today the selection of Triloma Securities as its managing broker/dealer.

EcoVest, which has successfully closed real estate investment offerings totaling approximately \$121 million since the Company's inception in 2012, selected Triloma Securities to become a managing broker/dealer for its private offerings, due to Triloma's deep relationships within the broker/dealer community and great cultural fit.

"Following extensive research, we could not be more excited to name Triloma Securities as our managing broker/dealer," said Alan Solon, CEO of EcoVest Capital, Inc. "The individual connections and experiences that each member at Triloma brings to the table are invaluable for the continued growth of our organization."

Headquartered in Winter Park, Florida and staffed with an experienced team of industry professionals that have raised a combined \$10 billion for various investment vehicles, Triloma Securities will bring EcoVest investment products to a number of additional broker/dealers and will distribute the company's products to important stakeholders.

"Partnering with EcoVest is a natural fit for us," said Larry Goff, CEO of Triloma Securities. "We are looking forward to helping the EcoVest team reach the right audience for its well thought-out products."

Triloma Financial Group formed Triloma Securities last year to bring a variety of private and publicly-offered investment programs to the broker/dealer community.

### **About EcoVest**

EcoVest Capital, Inc. is a real estate development company that operates on the belief that development opportunities should not be judged on economic viability alone, but that the responsible use and preservation of natural resources should be equally considered. EcoVest believes that improving development strategies in the areas of conservation and environmentally sensitive land planning can provide a multi-layered approach that balances economically sound development with environmental protection and social responsibility for generations to come.
